The committee on judiciary today considered the bill introduced yesterday by Senator Hale from the point of view that it might be regarded as a subterfuge and a technical violation of the constitutional provision intended to prevent the creation of lucrative positions for members of Congress. Finally it was decided that the main respective of the increase of salaries of cabinet members so far as it referred to secretary of state, was sound. The phraseology, however, met with criticism, and it was decided to draft a new measure.
